ABOUT WINGS

COMPANY PROFILE

Wings is an Information Technology (IT) and Security Systems services provider located in Al Ain, United Arab Emirates. The company is committed to offering a broad range of services from IT strategy setting, Security Systems and IT consultancy through systems integration to comprehensive outsourcing of IT or business functions. Wings delivers unmatched business value to customers through a combination of process excellence, quality frameworks and service delivery innovation.

Wings is dedicated to provide high quality and reliable IT Solutions, Security Systems, Products, Consulting and Networking. Over the years our reputation has grown based on our company policy of delivering high quality, flexible and cost effective solutions for our customers.

We have extensive capabilities to manage, enhance and support the IT and business processes of large and small Organizations. In support of this, we have the expertise to develop overall IT strategies and help our clients stay on the edge of business and technology innovation.

We have a proven track record of delivering high quality, solutions and services to our clients. As a company we work hard at listening to our clients, understanding their requirements, considering options and then providing cost effective solutions to our clients. The end result is that for our clients they have one point of contact for all of their IT requirements.

VISION

Commitment to serve, quality, innovation and hence to be recognized as the premier information technology & business process services partner.

MISSION

To provide quality professional Information Technology and Business Process Services that adds value to our clients' businesses.
